

Green Infrastructure Approaches

- Conservation Planning
- Green Infrastructure
- Living Shorelines

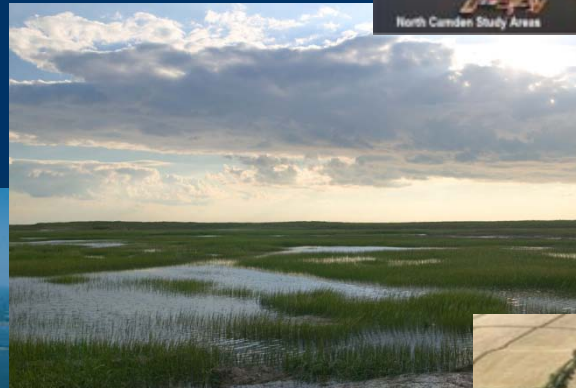

Rock sill with marsh restoration is a living shoreline hybrid structure.

Smart Growth Planning

- Compact Design
- Distinctive Communities
- Strategic Open Space

Actions

- 
- **Strengthen current initiatives**
 - **Improve existing processes**
 - **Build effective collaborations**

Ongoing Plans & Implementation Efforts

- Land Use
- Hazard Mitigation Plan
- Capital Improvements
- Transportation
- Natural Resources
- Sustainability
- Floodplain Management

Barriers & Opportunities

- What are we already doing?
- Is something “new” needed & if so, what?
- Let’s go back to “win-win” discussion – it’s not just a tag line, it’s all about benefit costs AND resource opportunities!
- Political will – what IS the problem?
